

25X1

3-5/84

MEMORANDUM FOR THE RECORD

2 December 1982

General Counsel

Item for the Daily Log - 2 December (Tuesday)

25X1 [redacted] called me to say that he had talked with his
25X1 friends on the [redacted], presumably [redacted] about the 25X1
25X1 [redacted] planes and parts, and that his [redacted] people indicated 25X1
that we would be discussing it further and that we were interested.
25X1 [redacted] was puzzled by this since he knew he had not talked to
me. I told him that we had informed our [redacted] people that we 25X1
had no connection with the transaction, and while not opposing any
loan or arrangements they might make, this Agency had no part in it.
25X1 [redacted] said this was his understanding from previous
talks with Mr. Hedden, and he did not wish to get involved unless
we wanted him to. He pointed out that he did have representatives
25X1 in [redacted] who could take action in this case, but I repeated that
at this point, and so far as I know in the future, this Agency has
no interest in being involved in the transaction in any way.
